# Dupnitsa

Dupnitsa is a starting point for interesting tourist attractions in South-West Bulgaria and also in the whole Rila mountain.

Only 14 kilometers away in Sapareva Banya, is located the hottest mineral spring in Europe - with water temperature of 103.8°C.

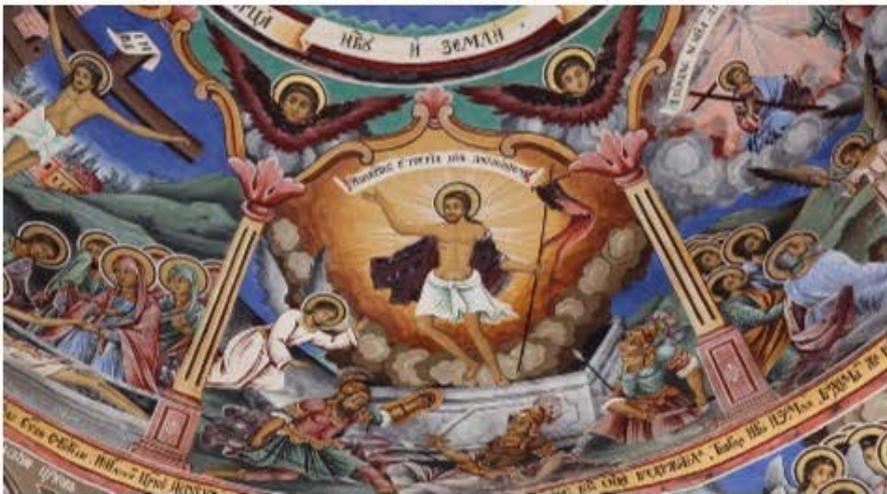

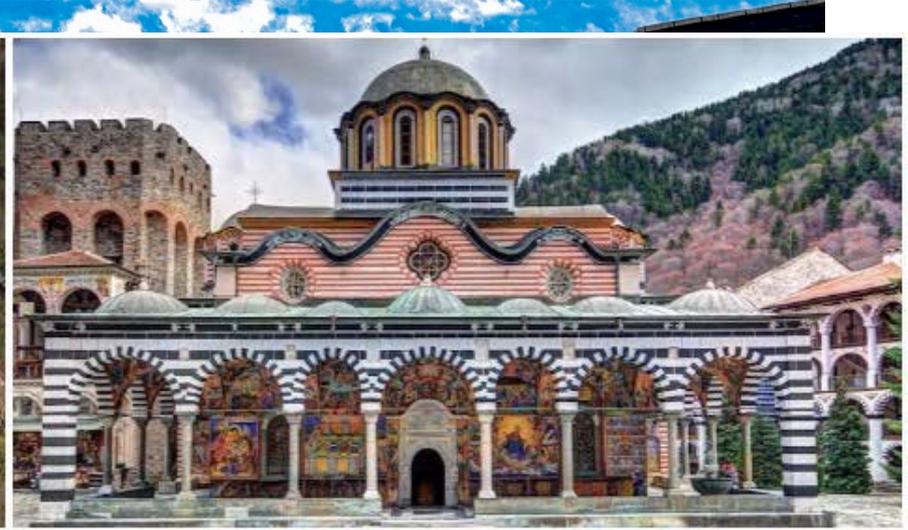

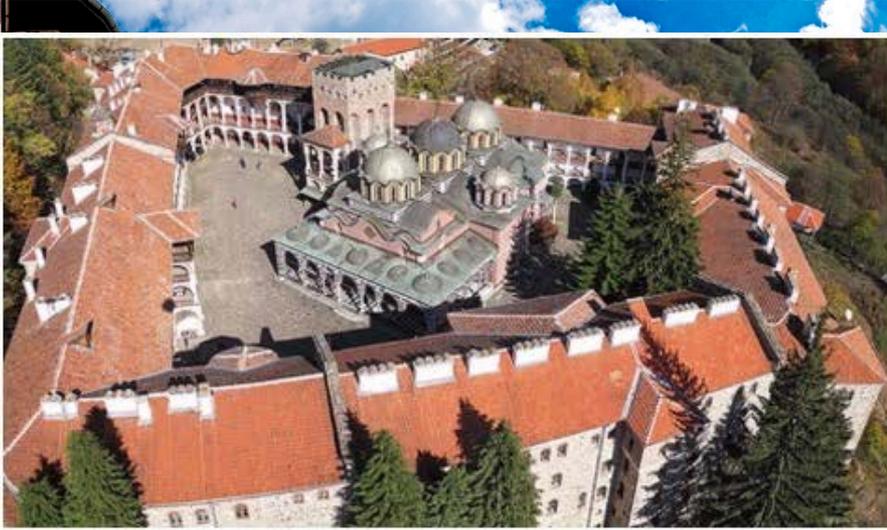

The resort Panichishte (altitude 1300m above sea level) is at 25 km distance. It gives a wonderful opportunity for winter and summer tourism and skiing. The resort is attractive with its beautiful and comfortable chalets, hotels and holiday homes. Marked tourist tracks reach from Panichishte to the chalets Skakavitsa, Lozan and Vada and to the Seven Lakes of Rila.

# Park Rila

# Rila monastery

architecture and is declared a national historical monument in 1976. It is included in UNESCO World Heritage Sites list in 1983.

# Rila mountain and the Seven Rila lakes

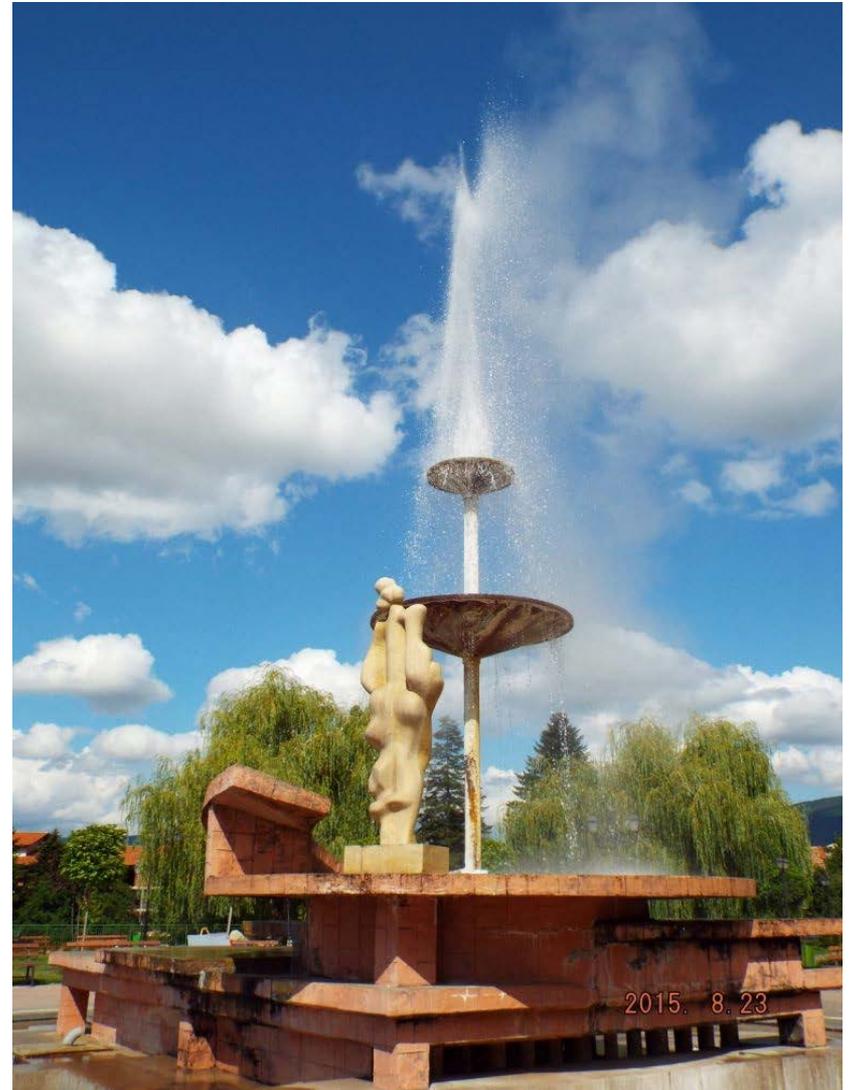

The **Seven Rila Lakes** are a group of glacial lakes, situated in the Rila Mountain at 2,100 - 2,500 meters above sea level.

They are the most visited group of lakes in Bulgaria. The lakes lay one above the other and are connected by small streams, which form tiny waterfalls and cascades.

Tourist accommodation in the lakes' vicinity include a chalet beside The Fish Lake, at 2,196m. The most common time to visit the lakes is summer, in July and August, when temperature is above 10°C and the risk of sudden storms is lower.

# Sapareva banya

The town of Sapareva Banya is situated on the Northern slope of Rila Mountain 14km away from Dupnitsa. Sapareva Banya prides itself with its cool mountain water and its healing geothermal mineral waters. It has the hottest mineral water on the Balkans and the only active geyser. The geyser and its surrounding park were developed in 1957 and have been tapped as a geothermal heating source for the municipal buildings and the greenhouses.
